Saturday, 4 p.m.
October 27, 2018

Olivia with her 2018 Champion Angus Female

Gerloff Miss Beauty
1969 Champion Angus Female

Commercial Cattlemen--Your Journey to Success

New Sale Date & Time!

Dedicated to the Livestock Industry Since 1906
It is our honor to extend an invitation to the 11th Annual Gerloff Farms Bull Fest & Customer Appreciation Day. This event is to market our profit focused genetics and show our appreciation to our respected customers. Satisfied customers and quality cattle have always been and will continue to be the focus of Gerloff Farms. Every day we work toward preparing to provide a distinct event that we can be proud of.

Our program continues to pursue and track down the elite AI sires in the beef industry. Both our Angus and Simmental breeds are among the best bulls available. We strive to offer you cattle that work in your environment and build on your bottom line. You can buy with confidence knowing that Gerloff Farms genetics will succeed in your pasture and grab the attention of your calf buyer.

We understand the importance of a strong genetic partner, and we take that very seriously. We invest heavily in cutting-edge technology, time tested approaches that locate fescue friendly cattle, and provide as much awareness as possible. All Bull Fest bulls have either genomically-enhanced EPDs or Igenity DNA profiles to provide you increased knowledge of future performance.

You are welcome to drop by and view our current bulls and females that will be showcased in our sale. All bulls will be videoed and available to view at www.gerloffcattle.com around mid-October. On sale day, bulls will be penned according to sire groups. Females will be grouped by breeding season. We encourage you to be here in person to fully appreciate the Bull Fest. More importantly, we want the opportunity to shake your hand and thank you for being here. However, if your schedule will not allow that, we will be streaming the sale live on Facebook this year. Simply watch and call in your bids.

If you have any questions or need additional information, please give us a call. For those of you who are unable to attend the day of the sale, we will help you with your selection, and guarantee satisfaction on unseen purchases.

We look forward to seeing you at the 11th Annual Bull Fest!

Charles and Rena Gerloff and Families
Peter and Mary Zimmerman
Mark and Wendy Cherry
What is the first thing you think of when you ponder the Gerloff name? For some it will be the cattle. For others, it’ll be the history of the operation. But, I’d wager that for most of us it’s the relationship. And justifiably so. With any long and meaningful relationship, there is a trust and a comfort that grows with time. The trust comes from cattle that perform over and over. The trust has proven itself in countless operations throughout Missouri and beyond. The trust is the result of a relentless pursuit of elite Angus and Simmental genetics - those genetics that perform in your environment, add money to your bottom line, and add stability for your family in the beef business. Trust is arguably the most precious and valuable commodity a person can have.

Your trust in Gerloff Farms is clear. But equally as clear is the comfort in the relationships you’ve developed while working with the Gerloff family. Likely, that comfort is instilled by the fact that the family has never met a stranger. And on the off chance they did, they’d still drop everything they were doing to help that person out. Of course, then Charles would invite that person to come check out the bulls. Every member of the crew keeps your best interest at heart in their decision making. Genetics, health, management - all decisions are geared to ensure your profitability in the beef business. That is the relationship you’ve counted on and continue to rely on. You demand cattle you can trust. But, even more importantly, you demand people you can trust. Of course, that’s why I’ll see you at the Bull Fest.

The Stone Hearth Inn, Linn, MO (573) 897-9903

Bull Fest
Saturday, October 27, 2018
4 P.M. at the farm in Bland, Missouri

Health:
All open heifers have been calfhood vaccinated. All bulls have been semen tested by Hunt Tainter, DVM. Health papers available for immediate delivery. Not liable for injury or death of cattle after the sale.

Semen available on herd sires sale day. Bring your semen tanks if interested.

Dr. Hunt Tainter & Family, Karri, Brooke & Reagen
Franklin County Vet Clinic
We appreciate your advice and knowledge! Thank you, Tainter Family!

Breeding Guarantee:
We guarantee all cattle sold through the Bull Fest, both bulls and heifers, are fertile to the best of our knowledge. Bulls selling for more than $2,500 sell with breeding guarantee. If a bull is found to be functionally infertile during the first breeding season, we will provide you with a satisfactory replacement (if available), or issue you a credit equal to the bull’s purchase price minus salvage value of $1,750. If an open heifer is determined to be a non-b breeder, then we would ask you to sell her or return her and would offer you the difference in her purchase price minus the salvage value as credit in the future sale. All cows selling with calves or examined pregnant will carry their own guarantee. We would suggest that normal care needs to be exercised toward these cattle and particularly that the yearling bulls are not allowed to get too thin. All claims must be made by April 1, 2019. Buyer will be responsible for purchasing AI certificates.

Sale will be broadcast live on Facebook.

We have been buying Gerloff Genetics for 25 years. We have built our herd from our 1st bull focusing on ribeye and marbling. A few years ago we sent cattle to Dodge City Kansas to evaluate our carcass value. We were extremely pleased with our findings and in the past 5 years we have only had one Select grade and the rest have graded Choice and Prime. Over 50% grade out CAB and 8 have went to Japan. Needless to say, we are very satisfied with our return and our bulls. Gerloff genetics have provided us great feed conversion and the finished product. We value the fact that Gerloffs are very fair people that place great concern in the commercial breeders’ success.

Gerloff Foxtale Lady D027 is by Mead Final Choice L239, one of the best sons ever sired by SAF Final Answer 0035 with a strong blend of superior calving ease.

As you study this pedigree you will find Connealy Power Surge 3115, MCAFL Vanguard 103-828 and Connealy Worthman 75B, all three bulls that were used with superior success in the Gerloff program.

Sells with a heifer call born 9/8/18 by Power Surge, BW 64 lbs.

Gerloff Rosa D020H - Lot 111

Gerloff Lucy D191H is a daughter of Musgravez Aviator who was the top selling bull in the Musgravez sale when he went to British Columbia with the dam by a top bull from the SA herd, SAV Brand Name 9115.

Sells with a heifer call born 9/8/18 by Power Surge, BW 64 lbs.
Fall Calving Cows

The Gerloff family was fortunate to acquire a number of Pleasant Pride foundation females from the Harvey Lemmon herd at Woodbury, Georgia and believe me they have been superior producers.

She sells with a heifer calf born 9/13/18 by Hook’s Brilliance, BW 74 lbs.
She sells with a bull calf born 9/12/18 by Main Event, BW 76 lbs.

**Gerloff Pleasant Pride Z053 [DDP]**

**Gerloff Pleasant Pride B008 [DDP]**

As you study this sale book you will find a number of Pleasant Pride females, one of the top lineages in the Gerloff program and the dam Lenmon Pleasant Pride M93 is a full sister to Lenmon Newsline, the Pathfinder sire and to BR New Frontier 095. AI on 4/22/2018 to Mohnen Success 187, then pasture exposed to Hook's Brilliance 37B from 5/18/18 to 6/16/18. Examined Safe 8/16/2018 75 days.

**Gerloff Pleasant Pride B008**: Brings to the table the best of Pleasant Pride genetics, the exact same family that produced the Pathfinder sire Lenmon Newsline as well as his flush brother BR New Frontier 095. AI on 4/21/2018 to Connealy Power Surge 3115, then pasture exposed to Hook’s Brilliance 37B from 5/18/18 to 6/16/18. Examined Safe 8/16/2018 75 days.

**Gerloff Pleasant Pride D025 [DDP]**

Over the years the Pleasant Pride family has risen to one of the top cow lines in the Gerloff program and again I must remind you, it is the same family as the Pathfinder sire Lenmon Newsline and the famous breed sensation BR New Frontier 095. AI on 5/15/2018 to Mohnen Success 187, then pasture exposed to Connealy Command 68X from 5/18/18 to 8/6/18. Examined Safe 8/16/2018 95 days.

In this year's Gerloff sale you will have an opportunity to buy from some of the best Pleasant Prides that have ever been offered, believe me it is one of the very top cows families in the herd and the same family that gave us Lemmon Newsline and BR New Frontier 09S, flush brothers.

I've been farming now over 60 years. Like a lot of old farmers, I worked a full time job, raised kids and farmed. During that time I did everything I could to save time and money.

Like a lot of farmers, I tried everything. I bought replacement cows from auction barns and neighbors. Bought my bulls the same way. When I needed a bull, I looked in the paper or Ad-Tracker to find someone with an older bull needing to get rid of him.

When I retired from my job, I decided I wanted to raise my own replacement heifers. I fixed a field close to the house so I could watch them grow. I bought a calf puller and went to calving class at Osage Vet.

My next step was going to Gerloff Farms and telling Charlie what I wanted to do. He said, “Well Bobby, you need one of these bulls over here.” He talked about CED and BW. Then he mentioned their DOC and WW. We agreed on a price and then I went home to find out what all that BW, DOC, CED and stuff meant.

This was in 2012 and from that date I have assisted in one heifer calving, and that was a calf coming out backwards.

With my daughter’s help we have increased our herd size. We are now on our 6th bull from Gerloff Farms.

The best thing is seeing the quality of our herd increase. We take great pride in our herd and it makes me feel good when I go to watch my calves sell and the Auctioneer stops and says, “Now boys look at these, these are good cattle, SIR.”

We are very proud of our cattle and it’s good to have an honest old man called Charlie at Gerloff Farms to deal with.

Mohnen Success 187 was the Lot 1 and the top selling bull in the 2018 Mohnen Angus “Power of Genetics” sale at White Lake, South Dakota.

Mohnen Success 187 has really grown into a powerful individual; he has the presence, the class and the goodness of a great bull.

The dam, Mohnen Jilt 1968, was the Lot 1 top selling cow in the 2016 Mohnen Female Sale for $22,000 to Shawn Frederick in Montana.

The dam, Mohnen Jilt 910, was the all-time high income cow in the Mohnen herd and a female that has more descendants in the Mohnen program than any other single female.

The sire, SAV Seedstock 4838, was a top bull in the Schaff Angus Valley sale and brings to the table the best of the breed in bloodlines.

Mohnen Success 187 is destined to be a landmark sire in the Gerloff program.
Hillard Stonewall 601 grows to fame as the Grand Champion Bull at the 2017 Missouri State Fair which is the largest State Fair Angus Show in America. Hillard Stonewall 601 is a power packed individual, thick, heavy boned, filled with muscle and meat, what a popular Grand Champion he was at the Missouri State Fair. The sire, PVF Insight 0129, was a bull with tremendous credentials as a sire of Champions and first prize winners in the National Junior Show year after year.

The maternal grandam, WCC Frontier Gal 39, was a Denver Grand Champion female and sired by the famous BR New Frontier 095, a flush brother to Lemmon Newsline, the Pathfinder Bull that was used in the Gerloff program. EXAR Frontier Gal 83223 was a tremendous daughter of Stevenson Moneymaker R185 and the kind you would expect to be the dam of a great herd bull. Hillard Stonewall 601 has all the credentials to be a great herd sire and what a powerful individual he is.

Hillard Stonewall 601

Farm profit can be boiled down to three areas: 1) complimentary breeds, 2) heterosis, and 3) multi-trait sire selection. Experienced producers understand the first two are addressed by responsible crossbreeding. But what is multi-trait selection? Simply, it is resisting shortcuts. Instead of focusing on one important trait (weaning weight for example) multi-trait selection reminds seedstock producers to put pressure on a host of economically relevant traits. Why? If we select only for weaning weight, then genetically we are actually selecting for mature size. In a short time that results in greater mature size, greater cow costs, and more calving problems. On the other hand, if we balance calving ease, weaning weight, carcass merit, and cow longevity we can ensure profits well into the future without building deficiencies into our herd. GF consistently uses a balanced approach. Again, this year you will see several sons of Hook’s Brilliance 37B. Brilliance has an extraordinarily rare genetic profile. In fact, only 5 purebred Simmental bulls in North America meet this threshold.
